

TÜRK YE ÖZEL SPORCULAR SPOR FEDERASYONU

Honorable SU-DS Famiy,

I would like to express the views of our federation about the operation on the southern border of our country and reduce your concerns. Turkish Armed Forces have been struggling against terrorist organisations for over 40 years. Last week, a deportation operation was organized on the southern border of our country. The aim is to ensure the security of our border.

As a federation, we have successfully organized various international organizations for our special athletes for a long time. I assure you that this operation continuing on the southern border of our country, 1500 km far away from Antalya, will not jeopardize the security of the 2020 Trisome Games in April. We have to follow the mission of SU-DS. Sport unites the people. Our athletes with Down's syndrome will prove this to the world in all its purity; brotherhood, friendship and peace.

Mr Birol Aydın

President

Turkish Special Athletes Sport Federation
